

GATE BURTON ENERGY PARK – LETTER 9 March 2022

I am writing to you as Clerk of Fenton Parish Council to follow up on the email we sent to you last month to confirm the initial stage of community consultation on the proposals Low Carbon is bringing forward for a new solar and energy storage park – known as Gate Burton Energy Park - has now closed.

Further to us completing our review of feedback to this consultation, if it would be of interest, we would welcome the opportunity to brief you and your elected members on the main issues and concerns that have been raised, as well as suggestions for community initiatives and projects we could support, and how we are seeking to address them as we continue to evolve our proposals. It will also enable us to update you on our plans for the next stage of statutory consultation on our detailed proposals for the solar energy park anticipated as taking place this summer.

The project team is available to meet with you and your members at your convenience either in person or via a virtual meeting. If you are interested in coordinating a meeting or have any queries regarding the project please do get in touch with us by calling 0800 860 6259 or sending an email to info@gateburtonenergypark.co.uk, otherwise a member of the team will be in touch shortly to follow up on this email.

Yours sincerely

Mike Rutgers
Development Director
Low Carbon
